

January 2024 NEWSLETTER

magicyearsnursery@hotmail.com

Learning is FUN!

With learning mainly achieved through play, it's naturally a fun environment for them. With games, play equipment, learning activities, creative opportunities and interactions with friends, they can't help but enjoy the whole process. If the experience is fun, our children will stay curious and keep coming back for more.

Play with your child daily, encourage their curiosity and allow them to explore.

Magic years news

Spirit reflects the concept of "inner-drive" self-direction and self-actualization. Play supports children's social, emotional, cognitive and physical development.

Welcome back everyone!!!

This term we will be learning about different festivals and celebration (Winter, Valentine's day, Chinese new year, Easter, World's book day) but also about season changing.

SPRING TERM TOPICS:

JANUARY - People that help us
FEBRUARY - Transport
MARCH - Gardening

When it comes to season changing, we encourage you to go out for walks and bring in anything interesting you find. Walking is a good way of keeping you active and we encourage you to use walking, bikes, scooters to encourage your child to walk to nursery as exercise is very good, allowing children a healthy development. Walking stimulates good cardiac and respiratory capacity; it helps controlling weight and strengthens the muscles. All activities we run around the topics and the child interests, likes and dislikes, encouraging children to express themselves to be creative and use imagination.

READ TOGETHER

Please share a story with your child every night, in English or in your home language. Please allow and encourage your child to use your home language, as that will only help your child to communicate better and develop speech.

TAPESTRY

Keep up to date with your child's learning journal

I love playing and exploring
I love getting messy
I'll get dirty often so please
provide me enough changing
clothes

I have lots of toys and resources to
explore in the nursery, so please
don't bring any extra from home as
I'll get really upset if they go
missing. Jewellery can become a
hazard when playing so keep them
away at my age.

I love eating healthy
I don't mind eating diverse dishes
I love playing outdoor
Encourage me at home to continue my
healthy diet and be active by taking me to
short walks around the neighborhood.

Mark Your Calendar

This term the nursery is offering 30 places for 15h in both rooms and 15 places for 30h government funding. Unfortunately, 0 spaces left for SEND. Please see attached link for anyone interested in council's local offer: <https://www.newham.gov.uk/localoffer>

8th January 2024 beginning of Spring term

12th to 16th Feb 2024 - half term - nursery closed
22nd March 2024 - last day of term
25th March to 5th April - Easter holiday

We celebrate children's birthday with songs, games and healthy snacks. NO cakes, sweets are allowed to be brought to nursery to be served to children or in the goody bags

Once the weather is going to be more friendly, we will start our short trips to the local park.

Please ensure you provide appropriate clothing as children will be taken outside everyday. Fresh air Fresh air not only cleans their lungs, it can also boost mood, lower heart rate, increase energy levels and even improve digestion.
